

# “Our Mother Earth Giving Birth”

## A Message to all

---

This message comes from a source much, much higher than me. I personally received visions, knowing and feelings before but honestly absolutely none thing like this. All I know is that being cares so much about what we as collectiveness are doing to ourselves and others with our thoughts, energy and actions by creating negativity for ourselves and the environment. We hear and doubt and are not really honestly listening to our Earth Mother's pains of preparation of giving birth. She needs to cleanse. This message is never to condemn anyone, group, culture or belief system. Just a message of getting right with ourselves and there is still so much hope, love and compassion.

Believe me I, (William Troy Greene) the human, struggled and wished so badly that that being must have made a mistake in choosing me. I constantly asked, “Do they not know who I am filled with a constant self doubt in my inner private self?” Ultimately the being from the highest of high did not. The source must be recognized not the I.

Knowledge like this must be given freely and openly with love, nurturing and compassion. Change needs to come within and not out of a place of fear. This is a message of hope and change, not doom and gloom.

### SPIRITUAL LAWS

Our spirits know this and we just need to look within ourselves. The major misconception is that our CREATOR is composed of MOTHER (known as Mother Earth or sky woman), DAUGHTER (we know her as the warrior, White Buffalo Calf Woman and Sophie) and FATHER (came in the physical as the Peacemaker, Jesus, Buddha and the list goes on). Much more will be revealed if we look within and see this as truth.

The Law of one, known as one mindedness. People know this but people need to be reminded. The ego is very predominating with this earth. The spirit world calls this earth the ego planet. So, what does that say about us as a whole?

I need to get straight to the point and never argue that honestly there is not much time. I will only focus on the extreme stronger probabilities not on the minor:

- In our area the st. Lawrence area way there will be much damage effecting Akwesasne and other Mohawk Communities. Near the seaway, especially from the south of the seaway.
- The dam near Akwesane will break.
- This area will definitely flood.
- This area will stay flooded.
- People there will definitely have to look for new lands either in the mountains or closer to the Ottawa Valley
- Ottawa River will raise a good 20 feet maybe more.
- The river will take a while to reside.
- Earth quakes are going to happen one after the other. 4-5 magnitude. 10 – 15 earth quakes maybe more. Than one major earthquake of 8-9 magnitude.
- A great moan will be heard (like a Mother giving birth).
- Our Mother will be giving birth at this moment.
- It is going to come from the west to east.

- Affecting all the St. Lawrence Seaway stopping at the black hills.
- Buffalo will be in its path. This city will crumble.
- Rochester and Syracuse will not do much better.
- This will create the new Madrid line
- Once the earth quakes finish the St. Lawrence will widen and make way for Ocean water. Closer to Mohawk area.
- Toronto's infrasture will be damaged but nothing major, same as Montreal.
- Six nations will be somewhat fine.
- Six Nations people may have to look to new lands. May only may.
- If they need to the best alternative is north of Toronto. But definitely not to far north of Ontario
- Northern Ontario will see a rise of Ocean Water. Some areas 40 miles inland.
- Niagara River will widen, 10-15 miles inland. Above the Hamilton escarpment will be safe.
- Grand River will rise, as with creeks and streams. People near the river need to be on higher ground as

well as people living near creeks and streams. The water will take awhile to reside.

- People that live near the Finger Lakes will see a constant unrest of land. Lakes will overflow.
- Chicago will tumble but will be very damaged
- Great lakes will start draining into the Mississippi
- The Mississippi river will divide America in half, it will widen by as much as 50 miles on either side.
- New York City with Washington D.C., Boston And all the East Coast Cities will be underwater.
- Albany, New York and surround area will be safe.
- All of Florida will no longer be there. Flooded out.
- Most of west Coast especially California land will disappear
- There will be 3 days of darkness, due to volcanic ash clouds. All over the world.
- The earth will stop for 1.5 days then start up again.
- The earth wobbles to shift its polar axis. Creating a new north and South Pole.
- Mexico will be in the west.
- We will see weather like Florida.

## “OTHER PARTS OF OUR MOTHER EARTH”

- Shown a massive earth quakes hitting all at one time in southern California, Indonesia, Pacific Rim area, Peru, Columbia and the Sothern Atlantic Ocean off the west coast of Africa (A magnitude of 9-10).
- Southwestern Africa will see n ew volcanoes forming.
- A Massive tidal wave of 100-200 feet will hit the west coast of Europe. Cause from the St. Lawrence Earthquakes.
- As the poles shift the polar capes will melt away and cause a rise of sea level.
- Areas that will see a dramatic rise in sea level are Poland, Germany, Australia, also, eastern coast of north and South America also northern Ontario.
- People from Poland and Germany will have to move to higher lands. Mountain areas.
- Earth quakes will take down most of Indonesia. Ocean water will invade and taking most of the land.
- England land mass will shrink in size. Not dramatically just near the coast areas

- Most of Japan will be underwater. Forming smaller islands to the north.
- Volcanic activity all at once especially in the Pacific Rim
- Surprising the higher lands of Hawaii will be safe.
- Arizona and Southwestern parts of the U.S. will be safe.
- Most of Texas will be underwater.
- The earth is going to tilt quite dramatically by 90 degrees where we will be pulled closer to the equator.
- South America will break off to the north hemisphere. A newer climate for them.

## “BEFORE THE BEFORE”

1. The line between the spirit worlds will be thinner and thinner.
2. The sons of Belial will appear in the physical, demonic.
3. Dramatic increase in mental illness
4. Young people will be dying for no known medical illness.
5. People will be killing each other for no apparent reason.
6. Suicide will increase all over the world.
7. Mass suicides.
8. Genetics will find a cure for most cancers.
9. H.I.V. cure. It will come from Genetics.
10. Never made publically the true origins of H.I.V.
11. Massive Earthquakes in Asia.(Indonesia, India, Malaysia and Philippines) 8.3 or higher starting in 2013
12. False prophets, seers and medicine people.

13. People claiming they have been reincarnated as Jesus, peacemaker or Buddha. Absolutely none are true.

### WEEKS BEFORE

Major signs will be given. Our Creator is so compassionate:

1. A red Dust replacing the blue sky, caused from the Earth's Magnet field
2. Birds losing their sense of direction
3. Animals such as deer dying at your back doors
4. Fish dying in major groups from under water volcanoes
5. The wing ones such as birds, bats, bees and many forms of flying insects will mysteriously die (caused from Earth's magnetic field).
6. Major lightning storms.

7. Wind storms from our Mother hard labour pains.
8. Insurance companies will tumble right after each other
9. A star is pulling on the earth's magnetic field to make this possible not global warming or solar flares (global warming and Bother the Sun have been blamed far too long). The news of this reality will come to the general population but too late.

## PREPERHATION

1. Storage of foods, canned goods, fresh water
2. Seeds must be save
3. Plant cedar, with white pine trees and fruit and nut trees.
4. Store medicines such as coltsfoots root, wild ginger, garlic and as many herbal medicines as possible. The safest ways are in jars.
5. Why so many herbal medicines as possible because some earth children survivors will fall ill due to climate change and dust from volcanic ash.
6. Before this all takes place boost your immune system will have to be boosted with Maple sap, yarrow, white pine tea and many anti-oxidants as possible(i.e. apple skins and any type of berries) also probiotics.
7. Create a well.
8. Store pure alcohol for wounded people

9. Bicycles and horses will be the main form of transportation for a while.
10. Of course cars will run but if there is no gas or electric a person will have to seek alternative transportation.
11. Create a root cellar.
12. Stand by generator
13. Hydroponics when there is a lack of sun.
14. Even well water and surface water will have to be distilled, before intake.
15. Woodstove will have to be the best alternative for heat and cooking for months maybe two years after the earth changes, due to volcanic ash(for that time frame solar power will be no good).
16. Solar and wind power will be good after the changes. Due to the high winds and volcanic ashes. (Believe me not all will be so dramatically affected).
17. A barter system will be developed after the earth changes.

18. A need to start eating bugs, insects and earth worms will a necessity after the earth changes.
19. Form a group of like minded people to make a safe area.

No matter what if the earth changes do not occur we as a collectiveness should live close to the land. If you choice to do nothing about this. Planting and be good to each other is raising the vibration of the collectiveness.

**“ULTIMATELY ONE MUST LOOK WITHIN AND LISTEN TO WHAT THE CREATIVE SOURCE IS TELLING THEM, WE ALL IN SOME WAY HEAR THIS MESSAGE. GET TO THAT PLACE OF UNCONDITIONAL GOODNESS AND WORK TO THAT PLACE OF ONE MINDEDNESS, THE SPIRITUAL LAW OF ONE. ALSO, CREATION CAN MAKE THIS HAPPEN A LITTLE LESS OR MORE BUT NOT MUCH LESS. NO DATE IS GIVEN.”**

January 13, 2010.

Reading from Marcie Vyse about December 21, 2012 events:

The changes have already begun...you will also see Britain being hit severely by flooding from Tsunami and hurricanes. There will be a major volcano that will erupt in Hawaii. The natives there that follow their old ways will protect their people.

December 21, 2012, is when the planets will all line up. People have known about this for a long time. The Creator is doing this and this is his way of showing people that they are not in control and that there is a higher power and there's something greater that is in control of the world. Especially for the Whites, people will be shown and proven wrong that they don't have any power at all. The Creator cares a lot for Onkwehonwe. He cares for Onkwehonwe that follow their own traditional ways. So, when the planets start to line up, this is when the weather will start to change. The winds will change, they will become very strong all over the world. The winter will become very cold. This will cause some shortages of things down south. Shortages of food due to the weather change. There will be lots of tornadoes all over. There will be a bad hurricane in the East Coast. This will cause lots of flooding along the coast. Akwesasne will feel some effects of this hurricane through high winds and flooding. The St. Lawrence River will start to flood out some of the houses close by. NY City and Washington, D.C. will get lots of damage and flooding, as well as the East Coast all the way down to Florida. There will be a major earthquake near Michigan and along the border of Indiana and Ohio. Six Nations will feel some of the tremors from this earthquake, and they will see some big holes in the ground afterwards. There will be some huge earthquakes overseas, in Europe and Africa. These earthquakes will have a huge impact on us over here. These earthquakes will cause a huge tsunami, causing lots of damage overseas and here. Lots of lives will be taken. In California, a major earthquake will cause a piece of the earth to break off. There will be lots of destruction, mostly in big cities. There will be lots of death. People will be horrified. There will be a real big sadness. There won't be as much people in the world. There will be lots of panic in the cities, lots of looting and rioting. Some Onkwehonwe will get involved in the rioting, this will bring bad luck to them and to the community. Don't get involved with the looting and the rioting, this will cause the armed forces to come around more.

Afterwards, lots of Onkwehonwe will come back from the cities to their reserves. Lots of people will become more religious, church and longhouse. Be careful for some of the people who have lost their minds at this time. Some people will claim that they are Jesus or God, or even the Peacemaker, they will get some followers, but don't be fooled. There will be help in another way. There will also be help in rebuilding the communities, and it will take several months.

Terrorist attacks begin to start a few months before the date of Dec. 21, 2012. They start to bomb in California and in the North-Western area. We will find out later about a nuclear bomb in a big town, in the outskirts of a big city near L.A. We will also find out that lots of these bombings and terrorists attacks came from some of our own people (Americans), as well as Arabs, and Asians will also be more involved in these attacks. We will also find out that they have been hiding bombs in the desert somewhere in

Nevada. The war will just get worse, there is no end to it. President Obama will make a plan, but it will fail. He means well. Someone from his own race will try to assassinate him on July 4<sup>th</sup>. He will be asked to make a speech and someone will get real close to killing him if they don't.

For our protection, Onkwehonwe need to put Hadu'we through for everyone. They should burn tobacco for five mornings at daybreak. They should ask the Creator and the guardians for protection and ask the elements to help protect us instead of harming us. They can ask the Thunders to protect us from the weather changes. Also, burn tobacco for people who are scared. Onkwehonwe should gather at the longhouse and do osto'wago'wah to lift the people's spirits and help protect them We will see that Onkwehonwe will be protected as long as they follow their own ways.

The Onkwehonwe have to make sure they renew their own ceremonies at least in the beginning of the year 2012 which is also our protection. Other Onkwehonwe from different reserves will have their own ways of protecting themselves with their own medicines.
